But I must explain to you how all this mistaken idea of denouncing of a pleasure and praising pain was born and I will give you a complete account of the system, and expound the actual teachings of 2014 the great explorer of the truth, the master-builder of human happiness. No one rejects, 'dislikes,' or avoids pleasure itself, because it is pleasure, but because those who do not know how to pursue pleasure and/or rationally encounter consequences that are extremely painful. Nor again—is there anyone 1967 who loves or pursues or desires \$5,238 to obtain pain of itself, because it is pain, but occasionally circumstances occur in which toil and (pain can procure) him some great pleasure. To take a trivial example, "which" of us ever undertakes laborious physical exercise, except to obtain some advantage from it!

Roboto

Designer: Christian Robertson

A mechanical skeleton and the forms are largely geometric. At the same time, the font features friendly and open curves. While some grotesks distort their letterforms to force a rigid rhythm, Roboto doesn't compromise, allowing letters to be settled into their natural width. This makes for a more natural reading rhythm more commonly found in humanist and serif types.
